bellabeat

Case Study

Last updated: June 2024

By: Swetha Panidapu

Goals for our discussion today

1

Overview of Bellabeat history and Purpose of study

2

Data analysis and Visualization of trends

3

Insights and areas of further exploration

Overview of Bellabeat history

Bellabeat

Founded in 2013 by Urška Sršen and Sando Mur

A high-tech manufacturer of health-focused smart products for women

Their products are bellabeat app, leaf, time, spring & bellabeat membership

Bellabeats marketing team focuses on digital media marketing

Purpose of study

Identify trends in smart device usage data to gain insight into how people are using their smart devices

Using the trends to inform recommendations supporting Bellabeat marketing strategy

The Data

Data source : Bellabeat_dataset (kaggle.com)

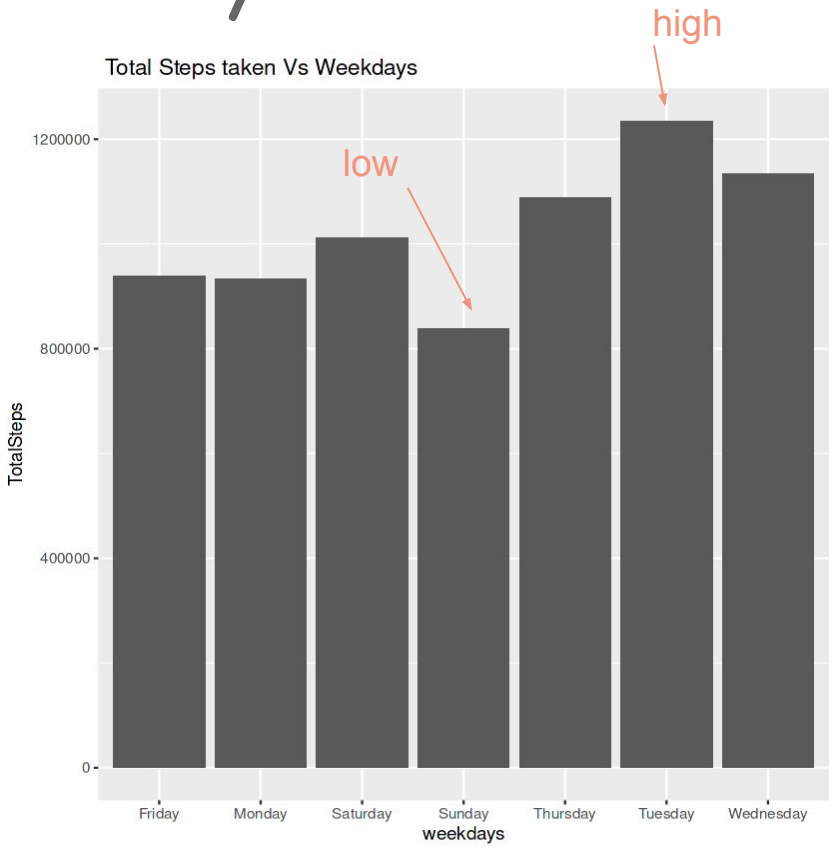
11/18 CSV files have been used

1. Daily activity data
2. Hourly activity data
3. Data related to heart rate
4. Sleep records
5. Weight records
6. METs

Daily activity trends

Average step count is 7600 steps per day

Total steps taken is higher on Tuesdays and least on Sundays



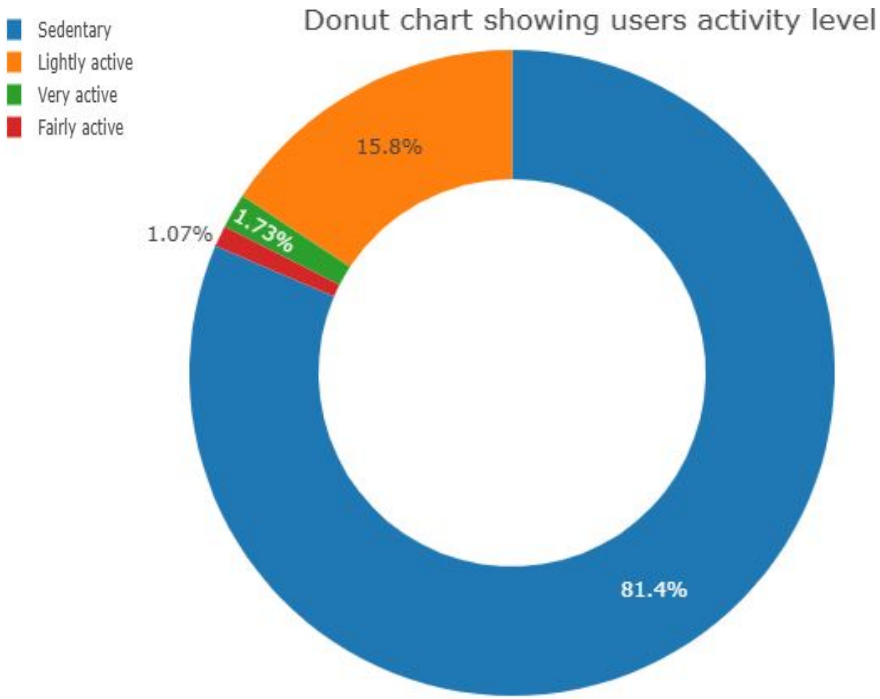
Daily activity trends

81.4% users are sedentary

15.8% are lightly active

1.73% are very active and

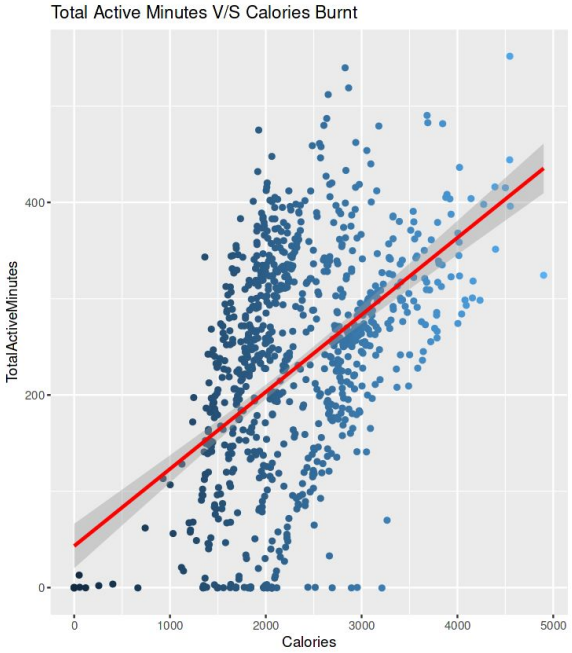
1.07% are fairly active

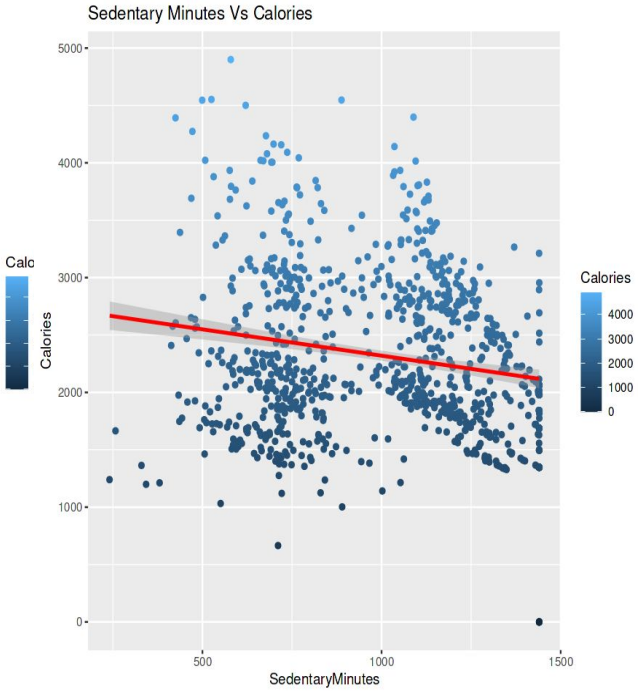


Daily activity trends

Positive correlation was noted between total active minutes and calorie burn.

Negative correlation was seen between calorie burn and sedentary minutes



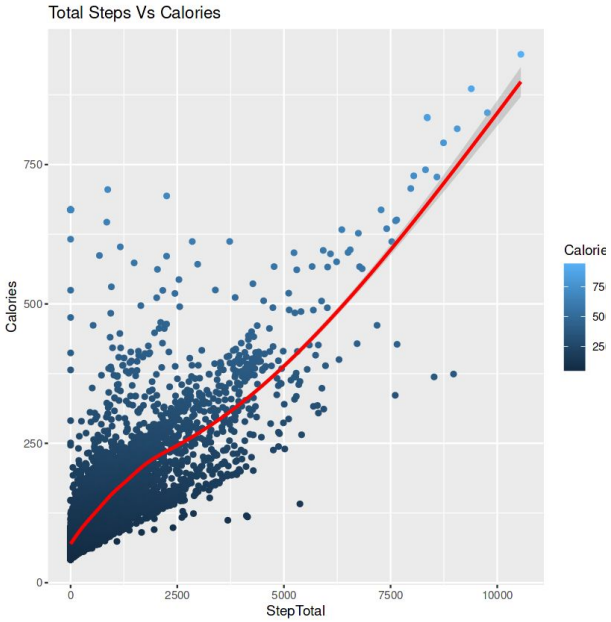


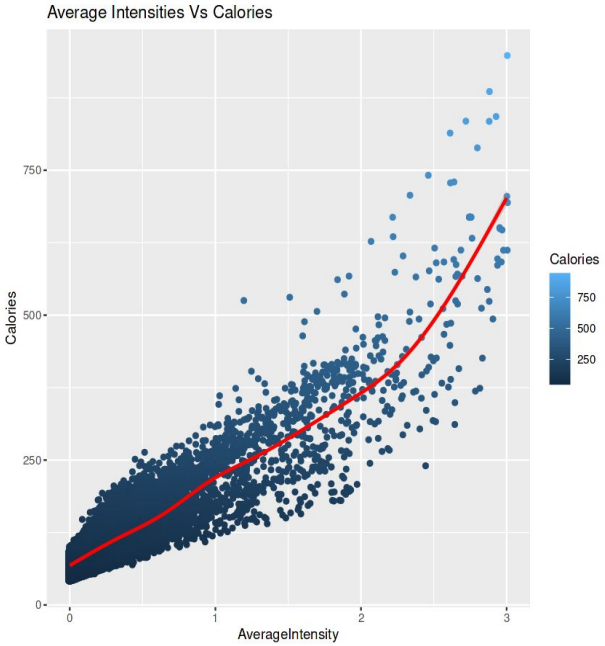
Daily activity trends

Total steps taken Vs Calorie burn and

Average intensities Vs calorie burn

Both show positive correlation

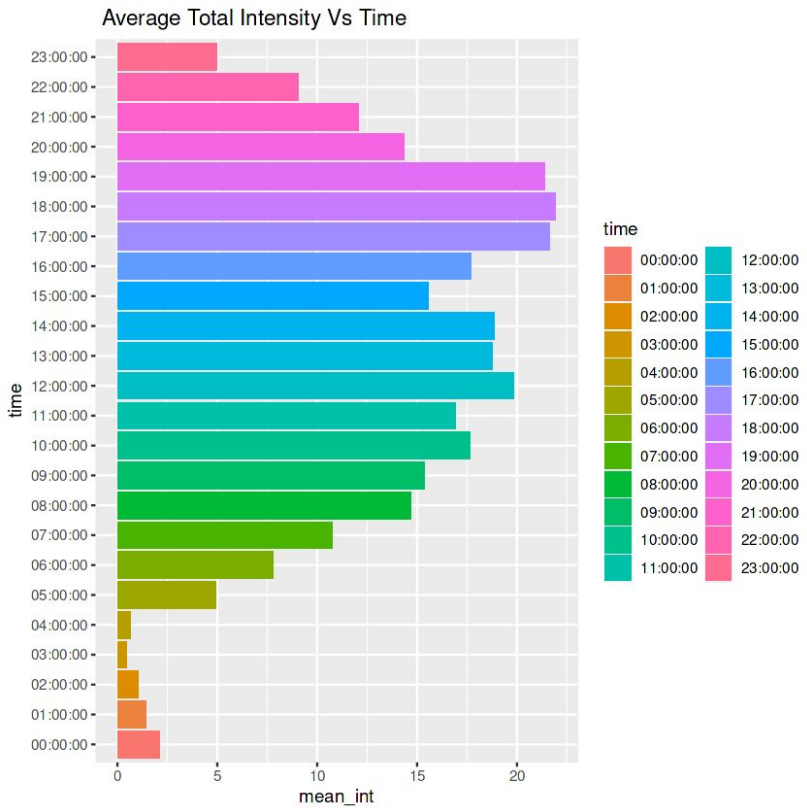




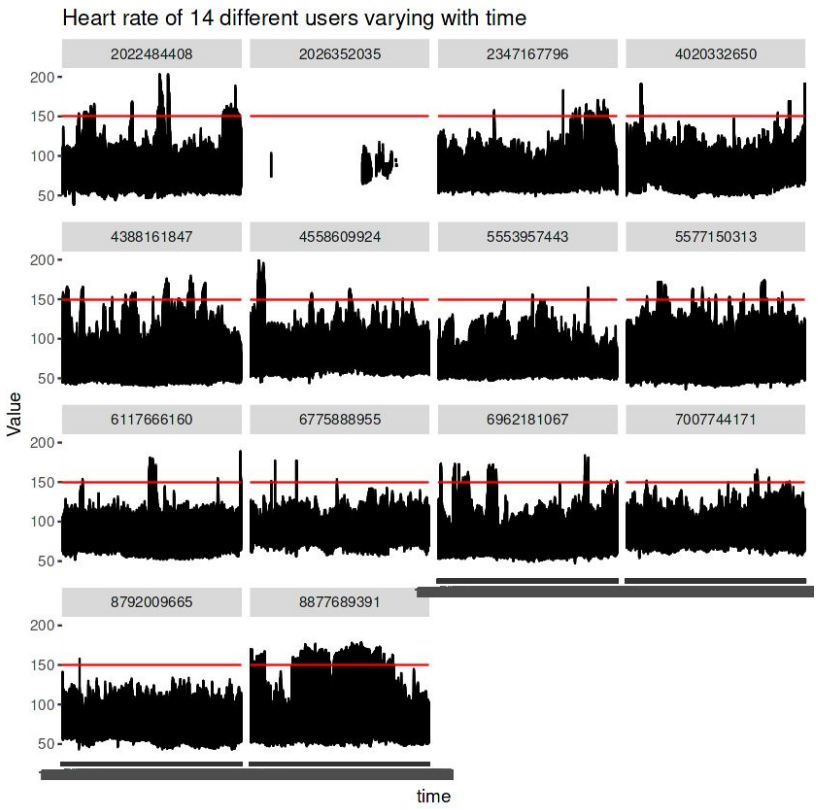
Hourly activity trends

High average total intensities have been noted from 5pm-7pm

Low average intensities have been noted from 5am-9am



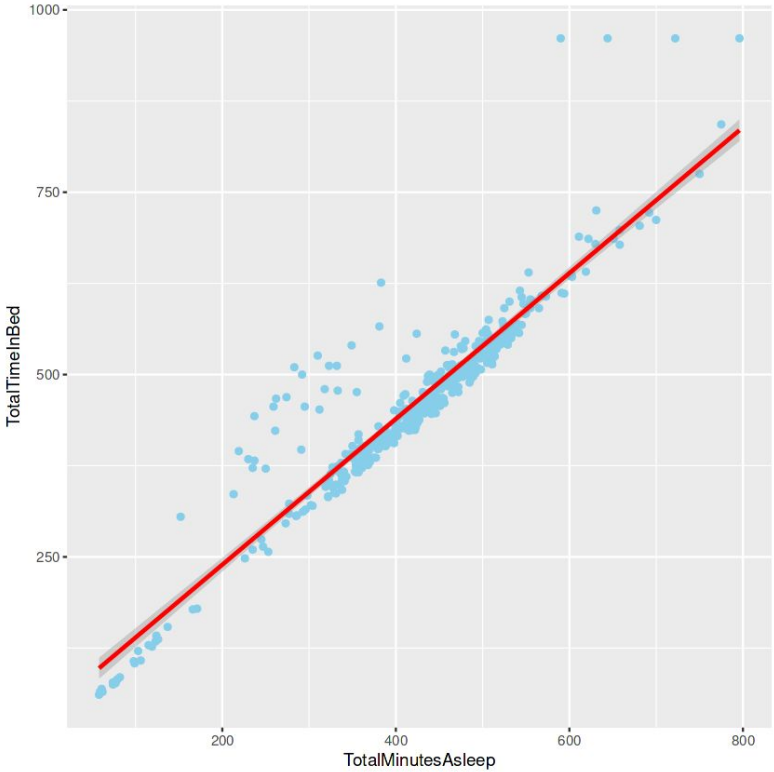
Heart rate trends



High heart rates as 203 and low heart rates as 36 have been spotted

All 14 users have recorded heart rates 150 at one point or other

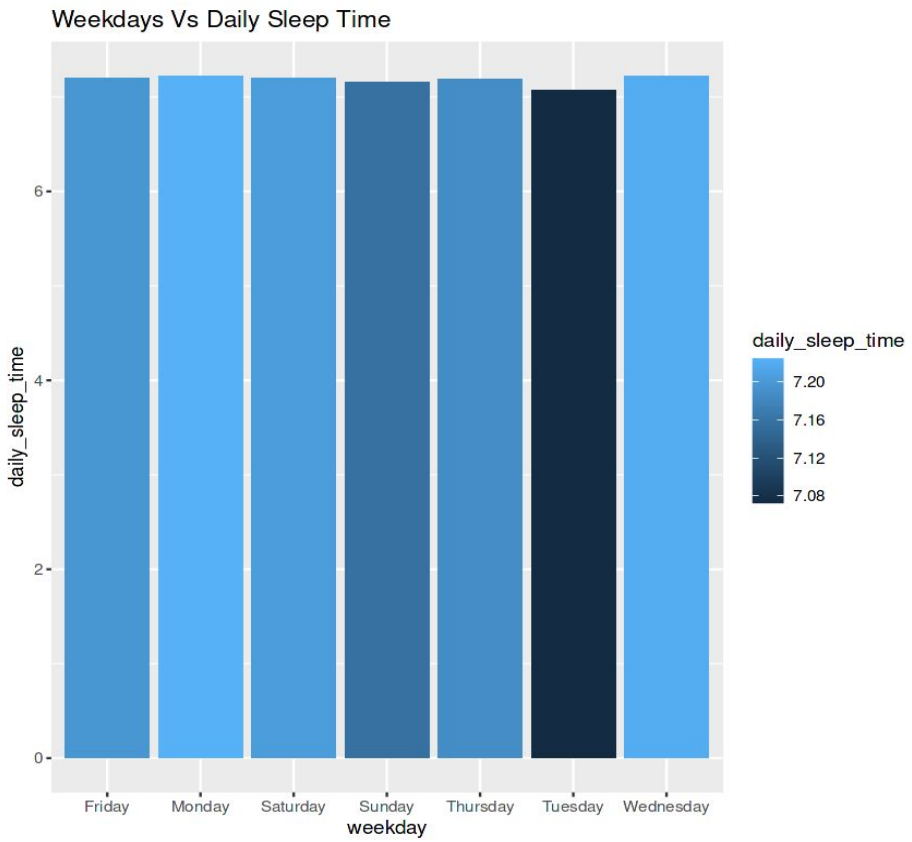
Sleep trends



Total time in bed and total minutes asleep show positive correlation

On an average users spend 1.5hours in bed without sleep

Sleep trends



Average time slept by users is seen to be 7 hours a daily

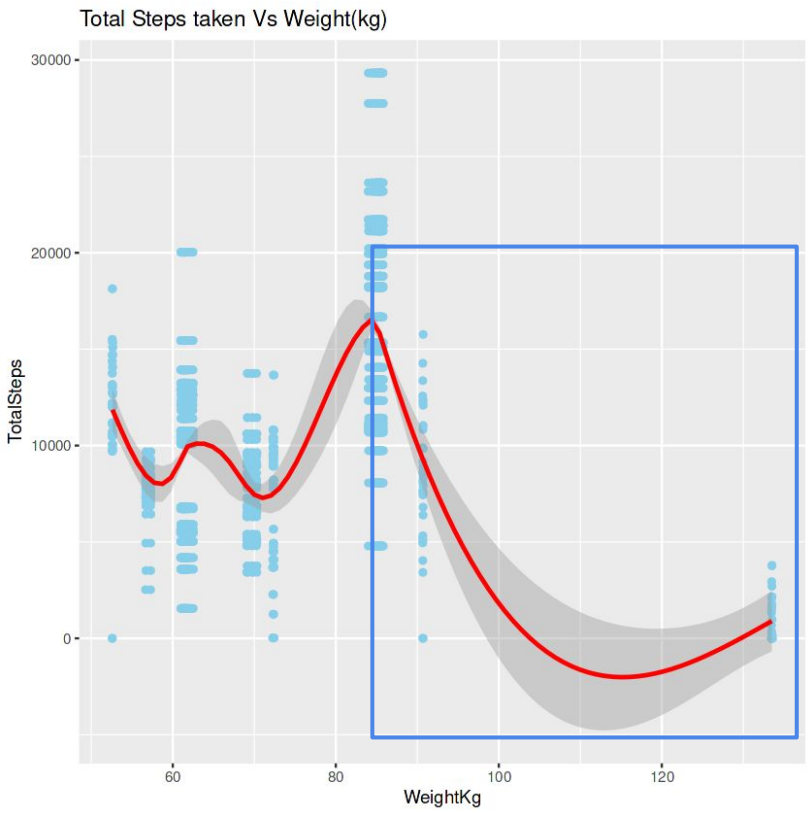
Users are found to be sleeping more hours on Wednesdays

Weight trends

As the total steps taken decrease, weight gain has been noted

Most users tend to skip manual inputs

On average 14 METs were met by users



How can Bellabeat play it smart?

1. **Consider developing a unique brand identity**
   Highlight how Bellabeat stands different in the market, develop a consistent brand face, energetic voice and a tone

2. **Add an extra layer of personalisation based on up to date trends**
   Sending out pop-ups to remind customers to hydrate, move, relax or take deep breaths; highlighting emergencies like high/low heart rates, can motivate customers to build trust

3. **Invest in adding a chat-bot**
   Virtual assistance to help customers to input additional information, place orders, help with refunds or understand product related features can aid in boosting online customer interaction

How can Bellabeat play it smart?

4. Expand Bellabeat product line

Finding new areas of customer market is always a good sign to grow. Bellabeat can try selling new products and services to improve their visibility

5. Additional research

Bellabeat can concentrate on improving attractive content related to health & wellness for women, create ads highlighting those topics, by using focus studies

6. Understand customer reviews and feedback

Feedback is how customers express their genuine views and interests. Considering feedback to further improve the products and services may help reach customers directly

Thank You
